

CENTRAL ELECTRICITY BOARD

Extracts from General Notice No. 516 of 1964 including amendments

"Bulk Consumer" means a consumer who uses electrical energy, supplied in bulk by the Central Electricity board, jointly as a Domestic Consumer, Commercial Consumer, and Industrial Consumer.

"Commercial Consumer" means a consumer occupying premises wholly or mainly used for the purposes of distributive or retail trade or for professional business or for providing a service to the public (whether or not a charge is made), such as shops, offices, hotels, clubs, training establishments, places of amusement, public institutions, hospitals, nursing homes and similar institutions. (Note: As amended by General Notice No. 1028 of 1987)

"Demand Charge" means the monthly charge made to the consumer in respect of the consumer's maximum electrical demand expressed in kilovolt amperes, as averaged over periods of thirty minutes in the month of account, or in any of the preceding six months of account, whichever is the greater, and measured by a maximum demand indicator of a type and rating approved by the Board.

"Domestic Consumer" means a consumer who uses electrical energy for lighting, heating, cooking and power for domestic and household purposes of one family only, with dependants or for places of worship or affiliated charitable institutions such as convents, nursing homes for the destitute or meeting places which are under the control of Religious or affiliated Charitable Institutions" (Note: As amended by General Notice No. 1028 of 1987)

"Industrial Consumer" means a consumer engaged in an extractive or manufacturing industry, and on whose premises electricity is used for the purpose of a mine, quarry, pit, factory works, foundry, mill, refinery, pumping plant, farm, or ship building or repair and/or mainly for motive power or for an electro-chemical or electro-thermal process.
